

Name: _____

Assignment: _____ Date: _____

Submission (1 point)

- All source code submitted electronically and as a hard-copy printout
- Hard-copy printout includes a cover sheet (this page) and a discussion & analysis (see below)
- *Without both submissions, no points will be awarded and your assignment will not be graded*

Compilation (1 point)

- Code compiles without syntax errors and warnings
- *If your code doesn't compile, your assignment will not be further graded*

Complete & Correct (20 Points)

- Code does the requested tasks using the requested techniques
- Code runs without runtime errors

Format (2 Points)

- Consistent indentation and white space (following class guidelines)
- Printed source code properly formatted (including no lines that run over width of page)

Comments (2 Points)

- File headings with author name, assignment number, and description (purpose and any issues)
- Good use of comments throughout code (including functions)
- Use meaningful variable, class, and function names

Discussion and Analysis (2 Points)

- One brief paragraph describing your testing strategy and possible improvements
- One brief paragraph on implementation issues/challenges and how you addressed them
- *This part should be included in your hard-copy printout only*

Total Score:

/ 28
